INDEPENDENT AUDITOR'S REPORT

To the Member of
Kimbo Trading, LLC
Chicago, Illinois

We have audited the accompanying statement of financial condition of Kimbo Trading, LLC as of December 31, 2007, and the related statements of operations, changes in member's equity and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Kimbo Trading, LLC as of December 31, 2007, and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained on pages 8 and 9 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Kimbo Trading, LLC
(an Illinois Limited Liability Company)
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2007

(1) NATURE OF BUSINESS

Kimbo Trading, LLC, (the "Company") engages in trading strategies primarily involving equities and equity derivative instruments on a proprietary basis. The company is registered as a broker/dealer with the Securities and Exchange Commission ("SEC") and is a member of the Chicago Stock Exchange.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Securities owned and securities sold, not yet purchased, held in firm trading and investment accounts, are carried at market value. Securities transactions are recorded on the trade date and, accordingly, gains and losses are recorded on unsettled transactions. Futures transactions and resulting gains and losses are recorded on the trade date. Gains and losses on open futures contracts are reflected in income.

The preparation of financial statements in conformity with generally accepted accounting principles includes the use of estimates that affect the financial statements. Accordingly, actual results could differ from those estimates.

No provision has been made for income taxes as the taxable income or loss of the Company is included in the income tax return of the member.

Financial instruments recorded at fair value on the Company's statement of financial condition include securities owned and securities sold, not yet purchased. Other financial instruments are recorded by the Company at contract amounts and include receivables from and payables to clearing broker. Financial instruments carried at contract amounts, which approximate fair value, either have short-term maturities, are repriced frequently, or bear market interest rates and, accordingly, are carried at amounts approximating fair value.

The Company has not presented a Statement of Comprehensive Income because it does not have any items of "other comprehensive income".

(3) DERIVATIVE FINANCIAL INSTRUMENTS HELD AND ISSUED FOR TRADING PURPOSES AND OTHER FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK

In its normal course of business, the Company trades financial instruments involving off-balance-sheet market risk with securities broker/dealers and futures commission merchants. The gross notional (or contractual) amounts of derivative financial instruments represent the volume of these transactions and not the amounts potentially subject to market risk. In addition, measurement of market risk is meaningful only when all related and offsetting transactions are taken into consideration.

Kimbo Trading, LLC
(an Illinois Limited Liability Company)

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2007

(3) *DERIVATIVE FINANCIAL INSTRUMENTS HELD AND ISSUED FOR TRADING PURPOSES AND OTHER FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK (CONTINUED)*

Market risk is the risk that a change in the level of one or more market prices, rates, indices, volatilities, correlations or other factors, such as liquidity, will result in losses for a specified position or portfolio. Financial instruments sold, but not yet purchased, entail an obligation to purchase the securities at a future date. The Company may incur a loss if the market value of the securities subsequently increases prior to the purchase of the security. Futures contracts are executed on an exchange, and cash settlement is made on a daily basis for market movements. The settlement of the aforementioned transactions is not expected to have a material adverse affect on the financial position of the Company.

As a trader, the Company is in the business of managing market risk. In management's opinion, market risk is substantially diminished when all financial instruments, including equities owned, are aggregated.

Credit risk represents the loss that the Company would incur if a counterparty fails to perform its contractual obligation to the Company. All derivative financial instruments entered into by the Company are exchange-traded. For exchange traded contracts, the Company's clearing broker, through industry clearing organizations, acts as the counterparty of specific transactions and therefore, bears the risk of delivery to and from counterparties.

(4) *CONCENTRATIONS OF CREDIT RISK*

At December 31, 2007, the Company had a significant concentration of credit risk which consisted of deposits with a bank and had balances totaling approximately \$224,000 which were not insured by the Federal Deposit Insurance Corporation.

(5) *REGULATORY MATTERS*

As a registered broker/dealer, the Company is subject to the SEC's Uniform Net Capital Rule (Rule 15c3-1) which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2007, the Company had net capital of \$332,718 which exceeded requirements by \$232,718 and the ratio of aggregate indebtedness to net capital was less than 1:1.

(6) *RELATED PARTY*

The Company is sharing office space with other affiliated entities. There were no costs allocated to the Company in 2007.

SUPPLEMENTARY INFORMATION

Kimbo Trading, LLC
(an Illinois Limited Liability Company)
**COMPUTATION OF NET CAPITAL,
PER UNIFORM NET CAPITAL RULE 15c3-1
DECEMBER 31, 2007**

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL

To the Member of
Kimbo Trading, LLC
Chicago, Illinois

In planning and performing our audit of the financial statements of Kimbo Trading, LLC (the "Company") for the period February 2, 2007 through December 31, 2007, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the consolidated financial statements and not to provide assurance on the internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission, we have made a study of the practices and procedures followed by Kimbo Trading, LLC that we considered relevant to the objectives stated in Rule 17a-5(g), (1) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and the reserve required by Rule 15c3-3(e); and (2) in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13. We did not review the practices and procedures followed by the Company in complying with the requirements for prompt payment for securities under Section 8(b) of Regulation T of the Board of Governors of the Federal Reserve System because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with U.S. generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control, including procedures for safeguarding securities, that we consider to be material weaknesses as defined above. Our review indicated that Kimbo Trading, LLC, although not exempt from Rule 15c3-3, had no reporting requirements because it did not transact a business in securities directly with or for other than members of a national securities exchange and did not carry margin accounts, credit balances or securities for any person defined as a "customer"

pursuant to Rule 17a-5(c)(4) and that, as of December 31, 2007, no facts came to our attention to indicate that such conditions were not complied with during the period.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and our study, we believe that the Company's practices and procedures were adequate at December 31, 2007, to meet the Commission's objectives.

This report is intended solely for the use of management, the Chicago Stock Exchange, the Securities and Exchange Commission and other regulatory authorities who rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Chicago, Illinois
